DIY SCRATCH ART ACTIVITY

Scratch art is a simple art project that use a scratching tool to remove the black layer of the project to reveal beautiful colours underneath their art.

Instructions:

1. Set up resources with a tarp/cloth down on the table.
2. Coloring your paper with oil pastels, making sure to press really hard. Use bright colors to create any pattern to design you choose. (For example, rainbow stripes).
3. In a cup add some black paint and dish soap (2:0.5 ratio), the soap will help the paint stick to the oil pastels. Using a foam brush, begin painting over your oil pastel picture.
4. Cover the entire paper and allow it to dry. It's okay if you see some of the patterns lightly under the paint.
5. Using a skinny stick, start scratching a design into the paper. Try to pick a theme (under the sea).

Learning Outcomes:

- Fine & Gross motor skills
- Exploring creativity
- Colour recognition
- Following Instructions
- Critical thinking
